**Student Experience Sharing**

**Willow Wang**

My biggest achievement in completing the programme was being able to overcome my fear of doing group work. In the past, I would rather finish a demanding task on my own instead of sharing the burden with others due to a lack of communication and anxiety about free riders. Most of the assignments in our programme required us to work in teams, in the form of presentations and essays that need collective responsibility and management. To my surprise, I had a great time with my teammates. It wasn’t always about getting an "A+", but also about the trust and friendships that I built through various interactions. I truly valued my time at HKU and made a lot of friends.

**Marie Dupont**

Project Assistant, Palatino Hospitality (Class of 2022)

Despite the fact that I have been studying this field for quite some time, the MSM programme did not fail to expand my understanding and knowledge. It offers a wide variety of modules to choose from, which I thought was impressive as we all have diverse interests, and the programme allows any individual to adapt to their individual needs and interests.

To add to that, I have lived in Hong Kong for over ten years before joining the programme, and despite COVID, my classmates and the international student club never failed to help me discover new things, and are always so friendly and welcoming, which is especially important for those who are new to the place. There is so much to see, do and learn, and I know I can count on them to help. Most importantly, it met such a diverse group of people from all over the world, who not only helped me become more open-minded but also introduced me to new and exciting opportunities.

**Philip Schurings**

Associate Consultant, IBM (Class of 2021)

I love the fact that it is such a diverse city, where you can go see the local side in Kowloon, the Western side on HK Island, and go to the beach and go hiking in the mountains. It is a very complete city that has a lot to offer and it is relatively easy for internationals to adapt to the culture and the city, as most of the people speak English. Now I’ll come to the University, because if there is one University in HK that is globally well-known, it is HKU. It is a school with a very good reputation, and it definitely lives up to it. It is a place where you can find many internationals, where there is a nice campus vibe and where you have very interesting and engaging classes. Professors, unlike in Europe, know you by name and try to have engaging conversations with you in class. This results in you learning even more and faster!

**Richelle Chua**

Master of Global Management (Class of 2023)

The programme has a strong global focus, with a diverse student body and faculty members from around the world. This provides students with a unique opportunity to learn about global business from a variety of perspectives, and to build a global network of contacts. It provides me with practical skills and knowledge that are essential for success in the global business environment. The programme covers a wide range of topics, including international business strategy, cross-cultural communication, global marketing, and global supply chain management. Completing a master’s degree at HKU is truly a remarkable achievement. As I will soon begin the next chapter of my life, I am excited to embrace new challenges with an open mind and a willingness to learn, I will pursue my passions and dreams with determination and ambition, and I will never stop striving for excellence.
